

Student Mental Health Assessment Report

Student Name: Samiya Salith

Date: 26 July 2026 03:37 PM

Assessment Result

Prediction: High Mental Health Risk

Risk Score: 98%

AI Wellness Recommendations

■ Encouragement

You are incredibly strong for carrying so much right now. Your worth is not defined by a GPA or financial stress; you deserve care, relief, and a bright future.

■ Study Advice

Shift from long hours to quality. Use the Pomodoro technique—study for 25 minutes, then take a 5-minute break. Focus on small, daily wins to boost your satisfaction.

■ Sleep Recommendations

Aim to add just 30 more minutes of rest this week. Wind down by turning off screens 15 minutes before bed to help your mind transition into a deeper sleep.

■ Nutrition

Keep it simple and budget-friendly. Fuel your brain with quick, affordable snacks like bananas, oats, or peanut butter to keep your energy and mood stable throughout the day.

■ Stress Management

When financial or academic worries feel heavy, try the 4-7-8 breathing technique: inhale for 4 seconds, hold for 7, exhale for 8. It quickly calms the nervous system.

■ Emotional Support

You do not have to carry this pain alone. Please reach out to a professional counselor, trusted adult, or a helpline immediately. Your life is deeply valuable, and help is available.

■ Daily Motivation

One small step at a time. You are enough, exactly as you are today. Be gentle with yourself.
